Community Led Local Development Programme

Project Impact Report 2018-2019

Christ Church Bridlington Network - Healthy Lives

Christ Church is made up of a number of churches, projects and ministry areas. Its community services are a practical and real way of bringing personal and social transformation to Bridlington.

Healthy Lives engages people through informal, friendly cooking sessions. People receive up to a year's support to gain confidence through learning about cooking, nutrition, job search, the internet, emails and other crucial life skills. The project also provides a treat day at Sewerby Hall during which participants can cook in the Edwardian kitchen and enjoy organised events with their families.

"I love coming to the course, I love the cooking, it helps me to meet new people, learn recipes for my family on a budget and generally have fun.....While attending the course I have received information, advice and guidance.....I also took part in a visit to Sewerby Hall. These activities have all helped improve my confidence to the point where I have started volunteering.....If I hadn't joined the project I would have been at home on the X Box. I have gained the confidence to attend the course."

Craig Davies, Healthy Lives participant

For every
£1 invested,
£5.48 of
social value
is returned*

*This return is a year one estimate based on forecasted outcomes, calculated using estimated data

Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

£289,948

of social value achieved*

*This return is a year one estimate based on forecasted outcomes, calculated using estimated data

The difference we make**

**Outcome statements categorised against Bristol Accord domains, based on project assumptions and expectations, not direct stakeholder feedback

Fair to everyone

- 43 participants have increased self-worth, feel more valued and confident

Active, inclusive and safe

- 20 people volunteered on the project
- 18 participants experienced improved relationships with friends and family
- 43 participants use statutory and other services more often

Thriving

- 8 participants gained employment
- 43 participants completed training to improve their life skills

Well connected

- 40 participants improved their ability to manage their mental health

Well served

- 25 participants feel more engaged with their children and more aware of their needs

Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
