# Community Led Local Development Programme

## Project Impact Report 2018-2019

### Northern Regen - Scarborough Construction Business Network

Northern Regeneration aims to turn opportunity into reality for local customers, students and partners through their innovate Skills Village model. The CSV was designed to bring education and industry closer together and help address the growing skills gap.

Scarborough Construction Business Network (SCBN) aims to:

- Help local businesses enter large construction company supply chains
- Increase construction business networking
- Increase employment
- Increase business start ups
- Improve the image and culture of construction
- Become a one stop shop business hub for construction

".....we received support with an apprentice selection process and the result is we now have Euan.....CSV Training helped him gain his CSCS card. I have also received support with accessing grants, the creation of Euan's contract, payroll, invoicing and marketing. Kacie and myself meet on a regular basis and the support given within this period enables me to move our business to the next level."

Jean Newsome, Andy Newsome Joinery, SCBN participant

For every  
**£1** invested,  
**£3.74** of  
social value  
is returned\*

\*This return is a year one estimate based on forecasted outcomes, calculated using estimated data

### Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

# £273,381

of social value achieved\*

\*This return is a year one estimate based on forecasted outcomes, calculated using estimated data

## The difference we make\*\*

\*\*Outcome statements categorised against Bristol Accord domains, based on project assumptions and expectations, not direct stakeholder feedback

### Well run

- 22 enterprises increased their understanding of the industry support services available to them

### Thriving

- 20 people started construction apprenticeships
- 195 people completed skills training in line with industry demand
- 5 local enterprises entered large construction company supply chains
- 2 entrepreneurs set up new businesses

### Well served

- 18 educators and construction businesses increased their partnership working

"Andrew has found it very rewarding supporting a young learner and feels proud of how Euan is progressing within the industry."

Jean Newsome, Andy Newsome Joinery, SCBN participant

### Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
