Community Led Local Development Programme

Project Impact Report 2018-2019

Sidewalk - Street Based Youth Engagement

Sidewalk is a youth led movement for change. For 28 years we have focused on engaging with Scarborough's most marginalised and at risk young people on the streets, to draw alongside them and nurture conditions in which they can develop in all areas of life.

Street based youth engagement aims to:

- Provide a safe place for young people
- Bridge the gap between young people at risk and the opportunities that exist
- Engage with those susceptible to exclusion to promote participation
- Re-engage 16-18 year old NEETs to help them become job ready
- Support disaffected 14-16 year olds to reengage with learning
- Provide tailored support and training to enhance the life chances of young people defined as NEET or at risk of becoming NEET
- Develop a youth community hub where young volunteers can help establish a space in which peers can get involved in community work, training, mentoring and coaching

"School's rubbish, home's rubbish, councillor's rubbish, parents are rubbish, but Sidewalk's great."

Street Based Youth Engagement participant

**For every
£1 invested,
£5.50 of
social value
is returned***

*This return is a year one estimate based on forecasted outcomes, calculated using estimated data

Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

£116,104

of social value achieved*

*This return is a year one estimate based on forecasted outcomes, calculated using estimated data

The difference we make**

**Outcome statements categorised against Bristol Accord domains, based on project assumptions and expectations, not direct stakeholder feedback

Fair to Everyone

- 11 participants have increased self-esteem and confidence, feel more valued and listened to

Active, inclusive and safe

- 6 participants feel safer and more like they belong
- 2 young people volunteered on the project

Thriving

- 2 participants gained employment
- 6 participants took up formal education or training options

Well served

- 2 schools improved their destination measures

Well connected

- 4 participants have improved mental health, take better care of themselves and can manage their behaviour more effectively

Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
