# Community Led Local Development Programme

Project Impact Report **2019 - 2021**

## West Park Property – Creation of Student Accommodation

This project created an accommodation office in order to employ pastoral staff to support students studying in Scarborough.

The number of first year students in Scarborough is increasing year on year and it is extremely important that the university can offer students high quality en-suite rooms along with dedicated support. Pastoral support will include emotional, financial and practical support.

This wider project sits well within the Town Centre plan to attract students and life into Scarborough Town Centre.

For more information about this and other CLLD projects please visit <https://www.advantagecoast.org.uk/>

For every  
£1 invested,  
**£6.53** of  
social value  
is returned\*

\*This return is based on data from July 2019 to June 2020, including direct participant feedback

### Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

# £ 308,808.92

## of social value achieved\*

\*This return is based on data from July 2019 to June 2020, including direct participant feedback

## The difference we make\*\*

\*\*Outcome statements categorised against Bristol Accord domains, based on on data that includes direct participant feedback

### Active, Inclusive and Safe

- 61 Students reported improved access to services

### Well Served

- 2 organisations reported increased collaboration

### Thriving

- 3 local people have been employed

### Fair to Everyone

- 5 tradesmen have been involved in the project

### Well Designed and Built

- 61 students reported an increase in housing provision

### Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
