# Community Led Local Development Programme

Project Impact Report **2018 - 2020**

## Scarborough Borough Council– Enhancing Scarborough Construction Skills Village

The project upgraded floor space in Eastfield, which increased the capacity for construction related training and provided dedicated business support space for local SMEs.

The Skills Village saw more capacity added with the purchase of a specifically designed mobile training facility and plant simulator which both enabled the recruitment of additional learners and was able to offer better business engagement and support on site, showcasing both the facility and the learners and enabled the Skills Village to tackle a major emerging skills shortage in plant training.

For more information about this and other CLLD projects please visit  
<https://www.advantagecoast.org.uk/>

For every  
£1 invested,  
**£1.78** of  
social value  
is returned\*

\*This return is based on data from July 2019 to June 2020, including direct participant feedback

### Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

# £ 711,651.62

## of social value achieved\*

\*This return is based on data from July 2019 to June 2020, including direct participant feedback

## The difference we make\*\*

\*\*Outcome statements categorised against Bristol Accord domains, based on on data that includes direct participant feedback

### Thriving

- 64 learners reported increased employability
- 52 businesses used the increased space
- 64 learners reported improved access to training

### Well Served

- Increased collaborative working

### Fair to Everyone

- Short term employment for 4 contractors

### Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
