Community Led Local Development Programme

Project Impact Report **2020**

The Property Shop – Expansion of Property Shop

This project allowed The Property Shop Yorkshire to refurbish and expand their existing building to make better use of the space within their footprint. This is now an accessible resource for people who are either homeless, in temporary, unfit or unsuitable accommodation. This allowed these identified groups to speak on a one to one basis with a property advisor who assessed their requirements and signposted them to accommodation or and/or agencies to work towards permanent accommodation.

It also provided IT resources such as PC's, internet, printers and telephones to restrict the barriers of finding the services that may be available.

For more information about this and other CLLD projects please visit <https://www.advantagecoast.org.uk/>

For every
£1 invested,
£8.37 of
social value
is returned*

*This return is based on data from July 2019 to June 2020, including direct participant feedback

Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

£ 95,864.26

of social value achieved*

*This return is based on data from July 2019 to June 2020, including direct participant feedback

The difference we make**

**Outcome statements categorised against Bristol Accord domains, based on on data that includes direct participant feedback

Active, Inclusive and Safe

- 72 vulnerable clients supported

Well Designed and Built

- 12 homeless customers housed

Fair to Everyone

- 7 Contractors where employed in the renovation
- 1 new employee recruited

Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
