Community Led Local Development Programme

Project Impact Report **2018-2022**

Christ Church Bridlington Network – Healthy Lives

Christ Church is made up of a number of churches, projects and ministry areas. It's community services are a practical and real way of bringing personal and social transformation to Bridlington.

Healthy Lives engaged people through informal, friendly cooking sessions. People received up to a years support to gain confidence through learning about cooking, nutrition, job search, the internet, emails and other crucial life skills. The project also provided a treat day at Sewerby Hall during which participants cooked in the Edwardian kitchen and enjoyed organised events with their families.

For more information about this and other CLLD projects please visit <http://www.advantagecoast.org.uk/>

For every
£1 invested,
£2.45 of
social value
is returned*

*This return is based on data from July 2019 to June 2020, including direct participant feedback

Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

£ 594,924.97

of social value achieved*

*This return is based on data from July 2019 to June 2020, including direct participant feedback

The difference we make**

Fair to Everyone

- 43 participants have increased self-worth and feel more valued and confident

Thriving

- 8 participants gained employment
- 43 participants completed training to improve life skills

Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
