Community Led Local Development Programme

Project Impact Report **2019 - 2022**

Aspire-igen – Lone Parent Carer Hub

Lone Parent Hub offered a variety of support to unemployed lone parents or family carers to help build on their strengths by developing their skills, abilities and helping to overcome challenges. Keyworkers helped to identify and access support that was most meaningful to the individual. This included:

- Career direction
- Wellbeing / personal development activities
- Support to access English, Maths and Computer Skills
- Employability skills, interview preparation and CV writing
- Domestic Abuse services
- Housing issues
- Training options
- Volunteering opportunities
- Debt help

For more information about this and other CLLD projects please visit <https://www.advantagecoast.org/>

For every
£1 invested,
£3.84 of
social value
is returned*

Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

£ 1,208,934.95

of social value achieved*

*This return is based on data from July 2019 to June 2020, including direct participant feedback

The difference we make**

**Outcome statements categorised against Bristol Accord domains, based on on data that includes direct participant feedback

- 43 participants moved into employment following the project
- 66 participants reported increased levels of qualifications and training

Well Served

- 51 participants reported better access to the internet

Well Connected

- 67 participants reported an improvement in mental health

Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
