# Community Led Local Development Programme

Project Impact Report **2018 - 2022**

## West Building Supplies – Scarborough Expansion

This project allowed West BS to deliver a better, more efficient service for local trades as their needs can now be serviced locally rather than from existing sites in Bridlington. The new build supplies a range of heavy and lightside building materials which trades require in order to do their day to day work. The site is also staffed with fully trained and knowledgeable staff who can advise on suitable materials.

The project also improves the service provided to a range of businesses within Scarborough. It also provides a range of job opportunities for local people and provides wider benefits further down the chain to local and national suppliers. West BS will also make links with the Scarborough Construction Skills village and offer benefits in supply for training and possible work placements for students.

For more information about this and other CLLD projects please visit <https://www.advantagecoast.org.uk/>

For every  
£1 invested,  
**£2.06** of  
social value  
is returned\*

\*This return is based on data from July 2019 to June 2020, including direct participant feedback

### Advantage Coast

The Advantage Coast Community Led Local Development (CLLD) programme aims to:

- Support business and enterprise growth
- Increase employment by supporting creation of new jobs
- Help those furthest from the labour market improve their employment opportunities
- Help to improve the skills and experience of unemployed people

The programme is funded by a joint bid made by East Riding of Yorkshire Council and Scarborough Borough Council, which secured £6.9 million from the European Structural Investment Fund to support community development, business growth and enterprise along the Yorkshire Coast.

# £ 614,912.24

## of social value achieved\*

## The difference we make\*\*

\*\*Outcome statements categorised against Bristol Accord domains, based on on data that includes direct participant feedback

### Well Served

- 2 organisations reported increased collaboration

### Thriving

- 6 students undertaking work placements
- 1 business created an extra branch

### Fair to Everyone

- 23 Construction workers involved in the store build
- 9 new employee recruited

### Social Value Engine

The CLLD programme is using the Social Value Engine to help identify a monetary value to represent the estimated social return of the programme as a whole. To build this picture we have used the Social Value Engine to calculate the social return of each CLLD project. We looked at the number of people and/or organisations each project has worked with to understand how many stakeholders have been impacted. We also used information on their individual journeys to understand the outcomes they have experienced. For more information on the Social Value Engine please visit <https://socialvalueengine.com>
